Hospital Infection Control
2001 Index

Abstract and Commentary
disaster in dialysis, SEP:127
inadequate drug therapy and patient death, JAN:14
TB patient infects others, JUN:86
VRE created by genetic transfer, JUL:100
warming surgical sites reduces infections, DEC:163

American Hospital Association
says bioterrorism last wave in a perfect storm, FEB:25

Antibiotic resistance
active surveillance cultures to prevent, DEC:158
bipartisan support for fed plan to combat, JAN:10
confronting the conundrum of "use it and lose it," MAR:40
ICPs a priority in fed plan, MAR:42
infection control among top priorities in final plan, JUN:80
patient warnings for linezolid, APR:57

Association for Professionals in Infection Control and Epidemiology
bioterrorism/disaster checklist, NOV:147
encouraged by patient safety response, OCT:137
fires off letter to patient safety czar, SEP:124

Bioterrorism
anthrax rumors scare up pseudo-patients, NOV:144
fears put ICPs front and center, NOV:142
hoaxes and false alarms, DEC:153
last wave in a perfect storm, FEB:25
portal shields used to detect pathogens, JUL:98
scenario deployed, JUL:97
ten commandments of preparedness, JUL:95

***Bioterrorism Watch* (monthly supplement)**
anthrax or flu symptoms, DEC:1
CDC smallpox plans, DEC:4
clinicians must be voice of reason, NOV:1
smallpox vaccinations, NOV:3
timeline, NOV:2

Blood stream infections
central line duration greatest predictor of, MAY:68

Catheters
CDC drafts new guidance for, OCT:136
IV set duration extended, JUL:102

Centers for Disease Control and Prevention
deaths due to infections in hemodialysis, JUN:83
defines new PEP regimens, AUG:109
dialysis infection prevention, JUN:82
drafts new catheter infection control guidance, OCT:136
environmental guidance by, APR:52
environmental guidance drops rituals, APR:53
post-exposure prophylaxis (PEP) for HIV, AUG:105
recommendations for PEP, AUG:108
TB skin tests revised by, JAN:8
urges routine HCV testing for dialysis, JUN:81

Creutzfeldt-Jakob Disease
guidelines for the operating room, SEP:123
much misunderstood disease, SEP:117
treating instruments exposed to, SEP:122
variant strain emerges in UK, SEP:120

Disaster planning
water loss and contamination, OCT:133

Emerging infections
Asian salmonella strain emerging in U.S., JUL:101
ebola feared from sick plane passenger, MAY:69
viral hemorrhagic fever recommendations, MAY:70

Food and Drug Administration
cracks down on hospital reprocessing, FEB:26
hospitals that reprocess subject to inspection, FEB:27
notifies hospitals about reuse deadlines, JUN:85
petitioned to remove unsafe needles, JAN:1
petitioners demands detailed, JAN:3

Guest column
Latex Lucy and allergic reactions, DEC:160

Gloves
federal guidelines for utility style used in housekeeping, JAN:13

Hand washing
fingernails as reservoirs for pathogens, DEC:161

***Healthcare Infection Prevention* (supplement)**
adenovirus deaths and an orphan vaccine, SEP:1
benchmark model for special settings, SEP:4
long-term care and ICPs, AUG:1
PEP for air rescue, AUG:3
risk of acquiring variant CJD from beef, SEP:3
strep pneumo outbreak described, OCT:2
strep pneumo vaccine underused, OCT:1
study on needlesticks in non-hospital settings, OCT:3

Hepatitis C virus
few options for occupational exposures, AUG:110
routine testing for urged in dialysis, JUN:81
spreads from patient to worker to patients, FEB:31
transmitted along with HIV by punch, FEB:30

Need back issues? Call our order department at (800) 688-2421; inside Georgia (404) 262-7436. Copyright © 2001 American Health Consultants®.

HIV
CDC defines new PEP regimens, AUG:109
CDC guide to post-exposure prophylaxis for, AUG:105
CDC recommendations for PEP, AUG:108
near-death PEP follows minor exposure, FEB:29
PEP for often unnecessary, JAN:11
toxic drugs administered for minor exposures, MAY:61
rapid test for returns, JUL:100
rapid tests becoming available, APR:51
transmitted along with HCV by punch, FEB:30
worker with damaged hands acquires from patient, MAY:64

Infection control professionals
battle bugs and rituals, JUL:94
eyewitness to infamy, NOV:146
innovators honored with awards, OCT:138
nursing shortage effects on, JUL:88
patient safety role, JUL:93
polled on CDC goals, JUL:91
salary survey of, NOV:insert
show cost cuts would backfire, May:66
teach right by showing wrong, NOV:151
urged not to be lone rangers, MAY:71

Influenza
immunization protocol AUG:113
immunizing hospital patients AUG:112
vaccine delayed, AUG: 115

Institute of Medicine
panel finds OSHA TB reg inflexible, FEB:22
panel fulfills TB charge with answers, FEB:23

Joint Commission on Accreditation of Healthcare Organizations
chief appeals for bioterror funding, NOV:148
enforcing OSHA needle mandate, OCT:129
hospital environment standards, JUL:98
key points of enforcement plan, OCT:131
medical error definitions by, FEB:19
patient safety must be proactive, FEB:20
patient safety standards issued by, FEB:17

Journal reviews
Asian salmonella strain emerging in U.S., JUL:101
HCV spreads from patient to worker to patients, FEB:31
ICPs urged not to be lone rangers, MAY:71
IV set duration extended, JUL:104
MRSA carriage risk factors, MAR:44
MRSA genome mapped, OCT:139
pediatric infection control, JUL:102
TB patient infects others, MAR:43
VRE foiled by aggressive action, JUN:87

Methicillin-resistant *Staphylococcus aureus* (MRSA)
airborne spread in unusual outbreaks, JUN:78
genome of mapped, OCT:139
losing the battle against, JUN:77
nasal colonization precedes infection, APR:50
risk factors for carriage of, MAR:44

Needlesticks and needle safety devices
human face of, JAN:4
needlesticks to surge under new OSHA regs, MAR:37
success and failure stories with devices, MAY:67
UCLA web site about, AUG:111

Neisseria meningitidis
fatal infections in lab workers, APR:45
isolate from dead patient infects worker, APR:48
lab worker's respiratory condition a key, APR:50

Occupational Safety and Health Administration
direct access trainer required by, APR:60
fines ambulance firm for bloodborne violations, DEC:162
IOM finds TB reg inflexible, FEB:22
needlesticks to surge under new record regs, MAR:37
TB standard by appears doomed, MAR:33
to question frontline workers on sharps, JAN:5
top 10 list of violations of bloodborne regs, JAN:8

Patient safety
APIC encouraged by patient safety response OCT:137
Joint Commission medical error definitions, FEB:19
Joint Commission requires proactive approach, FEB:20
Joint Commission standards for, FEB:17

Pneumonia
prevention of ventilator-associated, NOV:149
rises due to number and mix of nurses, JUN:84

Society for Healthcare Epidemiology of America
fires off letter to patient safety czar, SEP:124
keep focus on patient, MAY:65

Surgical site infections
warming surgical sites reduces, DEC:163

Surveillance
active culturing to prevent antibiotic resistance, DEC:158
for syndromes in absence of cultures, SEP:125
syndrome checklist, SEP:125

Tuberculosis
be wary of a comeback, MAR:36
OSHA reg on inflexible, FEB:22
OSHA standard on appears doomed, MAR:33
patient with infects others, MAR:43

Vancomycin-resistant enterococci (VRE)
created by genetic transfer, JUL:100
foiled by aggressive action, JUN:87
linezolid resistance emerges in, JUN:73
linezolid resistance in sickest patients, JUN:75

Xenotransplantation
national oversight panel formed on, APR:55
